

# improve, prevent, save

## OVERRIDE THE WRDA VETO

The Water Resources Development Act (WRDA) authorizes important programs for our nation's water infrastructure. Let the President know that you support projects to conserve wetlands, modernize our navigable waterways, and install vital hurricane protection along the Gulf Coast.

### WRDA's projects:

- Improve ports and waterways for cargo transport
- Provide flood control to protect lives and property
- Improve water supply, habitat protection, irrigation, and water-based recreation

The Water Resources Coalition works to ensure that a comprehensive, national water resources policy is developed, implemented and funded to provide a sustainable, productive economy; a healthy aquatic ecology; and public health and safety.

The Water Resources Coalition is a group of national and regional conservation, design, and construction organizations committed to developing a comprehensive national water resources policy.
